

Welcome to our

June Newsletter

ECCE ONLY

WHAT WE LEARNED

We learned more about the continent Asia in June. We saw all the flags of Asia, chose our favourite, and painted it. We looked at pictures about Asian animals and played guessing games to see if we could remember what they looked like. We saw photographs of the different landmarks around Asia, and photos of children in preschool like us and their families. We practiced every day for our Graduation, singing our songs, saying our poem and practicing our actions.

WHAT WE MADE

We made all our props for our Graduation. We painted boxes and sheets in Mario themes, and coloured in all our Mario Characters and painted coins to use for our big day. We made beautiful fire flowers and painted pots for them for our photos and decided what we wanted to be when we grew up. It was also Father's Day this month and we made our daddies cards, cookies with coloured icing and little baskets for the cookies for their special day.

ECCE ONLY

WHAT WE DID

We did a science experiment outside, it was so exciting, we had dissolvable vitamins, put one into a tube, and added some water and then teacher closed it, and shook it and we put it down and after a minute it made a big 'POP' and took off into the sky, just like a real rocket.

OUR FAVOURITE THING

Our favourite thing this month was our Graduation Day! All our hard work paid off, and we put on an amazing performance for our mommies and daddies. We had a big party afterwards with our friends and families.

BIRTHDAYS

This month we celebrated Mila's birthday. Happy Birthday!

FULL DAY PRESCHOOL

WHAT WE LEARNED

In June we practised very hard for our Graduation learning new action songs and how to welcome our parents in English, Irish and Lei taught us to say it in Portuguese. Danny told us all about the Ferry to France which sounded amazing. On one of the very sunny days we put ice in the water tray outside and watched it melt as the sun heated it up. On one of the days in June there was an accident by the traffic lights and we watched the emergency services at work. The Fire Brigade came and parked across the road to block the traffic. The Firemen and women got out and put up bollards with flashing lights to warn people that there was an accident. It was interesting to see them in action and we chatted about it afterwards. They were very nice and waved and smiled at us.

WHAT WE MADE

Father's Day fell in June and we were very busy making beautiful cards and salt dough rocks for our Daddies. We spent a lot of time painting, gluing and colouring making all kinds of props for our Graduation. This kept us really busy but we had a lot of fun creating all the different things.

FULL DAY PRESCHOOL

WHAT WE DID

This month, those of us who are going to big school in September went on a visit to Parteen school. We got to go into the classroom and visit our teachers again and play in the room. We talked to the current Junior Infants about what school was like and even got to try on some of the uniforms! It was so much fun and helped us get familiar with the school to support our transition for this huge milestone.

OUR FAVOURITE THING

Our favourite thing this month was our Graduation ceremony. We were so proud of ourselves for working hard to learn all our songs and then to stand up in front of all our mummies and daddies was a huge achievement. It was so cool to see our parents in our preschool while we sang our hearts out! Our most favourite part though was the party afterwards where we had lots of sweet treats!

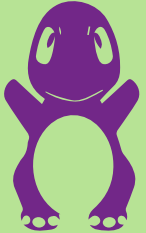

AFTERSCHOOL CLUB

WHAT WE LEARNED

We got creative this month, using circles to create our own pictures, turning them into all sorts of things from our imaginations. We learned how clever and creative we can be. We also created our own Pokémon's with special powers and drew up our designs for what they looked like so we could battle them against each other.

WHAT WE MADE

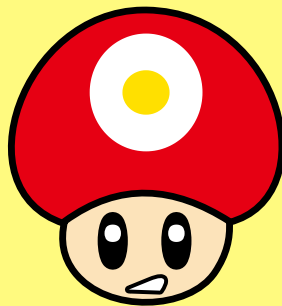

We made special crafts for our dads, like keychains and trophies, so they could hang them up and feel proud. We also used our imagination to complete partial pictures, including the Mona Lisa and various animals. Plus, we practiced our fine motor skills by creating an elephant sculpture inspired by Salvador Dali's artwork using various coloured dough.

AFTERSCHOOL CLUB

WHAT WE DID

We got plenty of exercise this month! We tackled a Mario-themed obstacle course that had us jumping over boxes, practiced our long jump skills, and learned a fun team game where we had to protect our team's flags. We played a new game with the beanbag: We had to fake each other out pretending to throw and if we tricked you into reaching out for the bean bag then you were out of the game.

OUR FAVOURITE THING

This month, we threw a party to celebrate a wonderful year with our afterschool friends and teachers. We looked back at photos from throughout the year, danced, and enjoyed some tasty treats. On hot days, we stayed cool by squeezing and tossing wet sponges. We even cooled off by putting our feet in water-filled bags. We definitely love water play.

HAVE A GREAT Summer!
